

GRL2020

A Vision for a Global Research Library

GRL2020 Asia

Academia Sinica, Taipei, Taiwan

24 - 25 February 2009

Applications & Case Studies

Role of Libraries

selecting resources

supporting information seekers
seekers and producers

acquiring and curating resources:
multi-type content, processing tools

Implications

- The technology must evolve
- The role/skill of librarians must evolve
-

Discussion

- Which are the requirements of the different application domains?
- Which are the solutions being experimented?
- Which are the major barriers (technological, organizational, policy-related) to the realization of optimal solutions and the lesson learned?
- Can we find common patterns?
